

TANVI VIPIN

Mechanical Engineering Undergraduate | Operations, Supply Chain & Program Management
Hyderabad, Telangana | +91 83411 66869 | tanvivipin23@gmail.com | linkedin.com/in/tanvi-vipin

Summary

Mechanical Engineering undergraduate with a strong academic record and hands on experience in operations & program management. Built a strong CAD and simulation foundation, through BAJA SAE INDIA 2026, including lead time planning from managing teams. Complemented by leadership experience and cross project scheduling. Known for translating technical requirements into clear, actionable plans while managing multiple priorities under deadline pressure.

Education

BTech. Mechanical Engineering

Vellore Institute of Technology, Vellore

- CGPA – 9.37
- Class XII: 97%, Class X: 96%

Experience

Industrial Intern

June 2026 – July 2026

Zero21 Autos – Hyderabad, India

- Supported factory floor operations and NPI on EV three-wheeler and conversion-kit lines.
- Analysed EV power flow across battery, controller, and motor subsystems.
- Created process documentation and user manuals across multiple EV models.

CAD Engineer

June 2024 – Jan 2026

Team Kshatriya & Kshatriya Electric (BAJA SAE INDIA)

- Designed and analysed the roll cage for the Electric Vehicle in SolidWorks, ensuring structural integrity and safety compliance.
- Ran FEA and stress simulations on the EV roll cage in ANSYS to validate load-bearing performance and crash safety.
- Managed vendor sourcing, negotiation, lead time planning, and inbound logistics for build components.
- Led DFM reviews for the ATV roll cage, balancing efficiency and manufacturability.
- Coordinated powertrain, electrical, and testing sub-teams against fixed deadlines.

Vice Chairperson

August 2024 – Present

Anokha NGO – Vellore, India

- Led operations and event planning for a 600+ member student organisation.
- Organised Kalaa 2.0, flagship event (2025 & 2026) for 1,200+ attendees; won Elite Club and Best Outreach Club.
- Managed event flow, budgeting, resource allocation, and vendor coordination for large scale events end to end.
- Built and streamlined operating processes across teams, improving execution speed and accountability.

Operations Head

Range of View Studios

- Owned end-to-end client communication workflows for a brand identity studio, serving as the primary point of accountability
- Coordinated scheduling and resourcing across concurrent client projects to prevent bottlenecks.
- Implemented quality control checkpoints for content and branding deliverables, reviewing outputs prior to final handoff.

Projects

Agentic AI for ESG Compliance in Supply Chains

Ongoing

Academic Project

- Building an agentic AI system for ESG compliance, covering supplier risk screening and sustainability scoring.
- Designing the architecture with live API integration across supplier onboarding and logistics risk.

Skills

Technical — SolidWorks (CSWP, CSWA) • CATIA • ANSYS • HyperMesh • MATLAB • FEA • GD&T

Professional — Vendor Sourcing & Negotiation • Procurement Planning • Lead-Time Planning • Cross-Functional Team Management • Stakeholder Coordination • Technical Documentation

Certificates

- SOLIDWORKS Professional (CSWP) & SOLIDWORKS Associate (CSWA)
- MathWorks MATLAB Certification

Languages

English • Hindi • Telugu • Malayalam
